Subject: DPL has added sitreps from June-December 2018

We started with June 15 (Tornillo opened after the 1st so there is no sitrep) and ended with December 15.

Please note there was a data issue on August 15 so we did not issue a sitrep. Instead, we provided one from August 14 and August 16

Question remains about whether the BCFS daily sitreps need to be included. These were not created/generated by us but by the grantee.
